

**Program Evaluations, Inspections and Audits of Department of Commerce Programs
FY 2002 - FY 2008**

Strategic Goal 1

Economic Development Administration

Year	Reviewer	Title
2007	OIG	Aggressive EDA leadership and oversight needed to correct persistent problems in RLF program
2005	GAO	Status of two authorities granted to the Department of Commerce's Economic Development Administration
2005	GAO	Remediation activities account for a small percentage of total Brownfield grant funding
2004	GAO	Indian Economic Development: Relationship to EDA grants and self-determination contracting is mixed
2003	OIG	Southside planning district commission - VA - Financial-related audit
2003	OIG	High Plains development authority, Inc., MT- Financial-related audit

International Trade Administration

Year	Reviewer	Title
2008	GAO	U.S. trade preference programs provide important benefits, but a more integrated approach would better ensure programs meet shared goals
2008	GAO	Agencies believe strengthening international agreements to improve collection of antidumping countervailing duties would be difficult and ineffective
2007	GAO	U.S. involvement at major international air shows depends on agency's missions and aerospace companies' resources
2007	GAO	An analysis of free trade agreements and Congressional and private sector consultations under trade promotion authority
2007	OIG	FY 2007 FISMA Core network general support system - Inspection
2007	OIG	Greater interagency involvement and more effective strategic planning would enhance the National Export Strategy - Inspection
2007	OIG	CS Brazil is operating well overall but needs management attention in some areas - Inspection
2007	OIG	Commerce can further assist U.S. exporters by enhancing its trade coordination efforts - Inspection
2006	OIG	Commerce should ensure that travelers to China receive counterintelligence briefings - Evaluation
2006	OIG	Commercial service operations in Argentina and Uruguay are mostly sound but financial processes need attention - Inspection
2006	OIG	CS China generally performs well but opportunities exist for Commerce to better coordinate its multiple China operations - Inspection
2005	OIG	Better management of overseas security program and security funds is needed - Inspection
2005	OIG	Import Administration has met most statutory deadlines on antidumping reviews, but management attention is needed in other areas - Inspection
2004	OIG	Commercial Service India: Challenges remain for management of large and economically diverse post - Inspection
2004	OIG	Pacific Northwest USEAC network generally operates well, but export success reports need more management scrutiny - Inspection
2004	OIG	USEACs are meeting client needs. But management oversight is needed - Inspection
2004	OIG	The Commercial Service needs to improve management of its operations in Turkey - Inspection
2004	OIG	Philadelphia USEAC network provides good services to clients, but oversight and export success reporting needs to be improved - Inspection
2004	OIG	Chicago USEAC network is generally operating well, but needs to improve its export success reporting - Inspection
2003	OIG	Generally sound operations at Commercial Service Greece are compromised by key weaknesses - Inspection
2002	OIG	US&FCS Italy's effectiveness can further be enhanced by focusing on management and program improvements - Inspection
2002	OIG	Trade compliance efforts need improved coordination - Inspection

Minority Business Development Agency

Year	Reviewer	Title
2005	OIG	Value of MBDA performance measures is undermined by inappropriate combining of program results and unreliable performance data from MBOC program - Performance Audit
2002	OIG	City of Los Angeles, CA - Audit of the MBDA award for the LAMBOC - Financial related audits

Bureau of Industry and Security

Year	Reviewer	Title
2007	OIG	U.S. Dual-use export controls for India should continue to be closely monitored - Evaluation
2007	OIG	Annual follow-up report on previous export control recommendations as mandated by the National Defense Authorization Act for fiscal year 2000 - Evaluation
2006	GAO	Export Controls: Improvement in Commerce's dual-use system needed to ensure protection of U.S. interests
2006	OIG	U.S. dual-use export controls for China need to be strengthened - Evaluation
2006 - 2001	OIG	Annual follow-up report on previous export control recommendations as mandated by the National Defense Authorization Act for fiscal year 2000 - Evaluation
2005	OIG	The export licensing process for chemical and biological commodities is generally working well, but some issues need resolution - Inspection
2004	OIG	Deemed export controls may not stop the transfer of sensitive technology to foreign nationals in the U.S. - Inspection
2003	OIG	Administrative matters concerning BIS' export enforcement - Inspection
2003	OIG	Improvements are needed to better enforce dual-use export control Laws
2002	GAO	Export Controls: Rapid advances in China's semiconductor industry underscore need for fundamental U.S. policy review
2002	GAO	Export Controls: Processes for determining proper control of defense-related items need improvement
2002	OIG	BXA needs to strengthen its ECASS modernization efforts to ensure long-term success of the project - Inspection

Bureau of the Census / Bureau of Economic Analysis

Year	Reviewer	Title
2008	GAO	Census Bureau should take actions to improve the credibility and accuracy of its cost estimate for the Decennial Census
2008	GAO	Bureau needs to specify how it will assess coverage follow-up techniques and when it will produce measurement results
2008	GAO	2010 Census: Census Bureau's decision to continue with handheld computers for address canvassing makes planning and testing critical
2008	GAO	2010 Census: Plans for Decennial Census operations and technology have progress, but much uncertainty remains
2008	GAO	2010 Census: Census at critical juncture for implementing risk reduction strategies
2008	GAO	Information Technology: Significant problems of critical automation program contribute to risks facing 2010 Census
2008	OIG	2010 Decennial Census: Census should further refine its cost estimate for fingerprinting temporary staff
2008	OIG	2010 Decennial Census: OIG reviews through the decade identify significant problems in key operations
2007	GAO	Information Technology: Census Bureau needs to improve its risk management of decennial systems
2007	GAO	2010 Census: Population measures are important for federal funding allocations
2007	GAO	2010 Census: Diversity in human capital, outreach efforts can benefit the 2010 Census
2007	GAO	2010 Census: Preparations for the 2010 Census underway, but continued oversight and risk management are critical
2007	GAO	2010 Census: Census is making progress on the local update of census addresses program, but improvements are needed
2007	GAO	2010 Census: Census Bureau should refine recruiting and hiring efforts and enhance training of temporary field staff
2007	GAO	2010 Census: Design shows progress, but managing technology acquisitions, temporary field staff, and gulf region enumeration require attention
2007	OIG	Lax IT security leaves sensitive Census information at risk of compromise - Evaluation
2007	OIG	FY 2007 FISMA assessment of AES Direct major application - Evaluation
2007	OIG	Federal audit clearinghouse reimbursable agreements - Audit
2007	OIG	2010 Census: Key challenges to enumerating American Indian reservations unresolved by 2006 census test - Evaluation
2007	OIG	2010 Census: Key challenges to enumerating American Indian reservations unresolved by 2006 Census test
2007	OIG	Census has improved accountability for laptops and other personal property - Audit
2007	OIG	Follow-up review of Workers' Compensation program at the Census Bureau reveals limited efforts to address previous OIG recommendations - Evaluation
2006	GAO	2010 Census: Redesigned approach holds promise, but Census Bureau needs to annually develop and provide a comprehensive project plan to monitor costs
2006	GAO	2010 Census: Census Bureau needs to take prompt actions to resolve long-standing and emerging address and mapping challenges
2006	GAO	2010 Census: Costs and risks must be closely monitored and evaluated with mitigation plans in place
2006	GAO	2010 Census: Census Bureau generally follows selected leading acquisition planning practices, but continued management attention is needed to help ensure success
2006	GAO	2010 Census: Planning and testing activities are making progress
2006	GAO	Important activities for improving management of key 2010 Decennial acquisitions remain to be done
2006	OIG	Enumerating group quarters continues to pose challenges - Inspection
2006	OIG	Valuable learning opportunities were missed in the 2006 test of address canvassing - Evaluation
2005	GAO	Information Technology Management: Census Bureau has implemented many key practices, but additional actions are needed
2005	GAO	2010 Census: Basic design has potential, but remaining challenges need prompt resolution

Year	Reviewer	Title
2005	OIG	FDCA program for the 2010 Census is progressing, but key management and acquisition activities need to be completed - Inspection
2005	OIG	BEA - Some improvements are needed in the handling of reimbursable agreements and the sale of products and services - Performance Audit
2005	OIG	Management controls over reimbursable agreements at the U.S. Census Bureau need improvement - Performance Audit
2004	GAO	Census Bureau needs to accelerate efforts to develop and implement data quality review standards
2004	GAO	Census 2000: Design choices contributed to inaccuracy of coverage evaluation estimates
2004	GAO	American Community Survey: Key unresolved issues
2004	GAO	2010 Census: Counting Americans overseas as part of the census would not be feasible
2004	GAO	2010 Census: Counting Americans overseas as part of the census would not be cost effective
2004	GAO	2010 Census: Overseas enumeration test raises need for clear policy direction
2004	GAO	2010 Census: Cost and design issues need to be addressed soon
2004	OIG	The Census Bureau should redefine its national critical systems
2004	OIG	Improving our measure of America: What the 2004 Census test can teach us in planning for the 2010 Decennial Census - Inspection
2004	OIG	Weaknesses in Census Bureau's certification and accreditation process leave security of critical information systems in question - Inspection
2004	OIG	Improvements needed in the reporting of performance measures by the U.S. Census Bureau - Performance Audit
2004	OIG	Results assessment of federal audit clearinghouse database utilizing agreed-upon procedures - Performance Audit
2003	GAO	Decennial Census: Lessons learned for locating and counting migrant and seasonal farm workers
2003	GAO	2000 Census: Coverage measurement programs' results, costs, and lessons learned
2003	GAO	Decennial Census: Methods for collecting and reporting data on the homeless and others without conventional housing needs refinement
2003	GAO	Decennial Census: Methods for collecting and reporting Hispanic subgroup data needs refinement
2003	GAO	Major management challenges and risks: Department of Commerce
2003	OIG	Census Bureau's National processing center needs to improve controls over government bills of lading - Performance Audit
2003	OIG	MAF/TIGER redesign project needs management improvements to meet its Decennial goals and cost objective - Evaluation
2002	GAO	2000 Census: Complete cost of coverage evaluation programs are not available
2002	GAO	2000 Census: Lessons learned for planning a more cost effective 2010 Census
2002	GAO	The American Community Survey: Accuracy and timeliness issues
2002	GAO	2000 Census: Refinements to full count review program could improve future data quality
2002	GAO	Legal authority for American Community Survey
2002	GAO	2000 Census: Coverage evaluation matching implemented as planned. But Census Bureau should evaluate lessons learned
2002	GAO	2000 Census: Best practices and lessons learned for more cost effective nonresponse follow-up
2002	OIG	Selected aspects of Census 2000 accuracy and coverage evaluation needs improvements before 2010 - Evaluation
2002	OIG	Improving our measure of America: What Census 2000 can teach us in planning for 2010 - Performance Audit

Strategic Goal 2

National Institute of Standards and Technology / National Technical Information Service

Year	Reviewer	Title
2008	GAO	Federal programs for accrediting laboratories that test voting systems need to be better defined and implemented
2008	GAO	Federal agency efforts to encrypt sensitive information are under way, but work remains
2007	GAO	Federal Research: Policies guiding the dissemination of scientific research from selected agencies should be clarified and better communicated
2007	OIG	Logistics group operations are mostly sound, but management attention is needed in some areas - Inspection
2005	GAO	Information Security: Weaknesses persist at federal agencies despite progress made in implementing related statutory requirements
2005	GAO	Advanced Technology Program: Inherent factors in selection process are likely to limit identification of similar research
2005	GAO	Information Security: Improving oversight of access to federal systems and data by contractors can reduce risk
2005	OIG	NIST's procurement practices have improved, but additional changes remain - Performance audit
2004	GAO	Recent fires highlight weaknesses in federal standards and oversight
2004	GAO	Information Security: Agencies need to implement consistent processes in authorizing systems for operation
2004	GAO	Information Security: Continued efforts needed to sustain progress in implementing statutory requirements
2004	OIG	NIST's management of interagency agreements - Performance audit
2003	OIG	NIST'S patent license agreement process needs improvement - Performance audit
2003	OIG	Award for five-axis machine center under RFQ SB1341-02-Q-550 justified but procurement process needs improvement - Performance audit

Year	Reviewer	Title
2003	OIG	KLA-Tencor Corporation, CA - Financial-related audits
2003	OIG	Texas Engineering Extension Service - Financial-related audits
2003	OIG	W. Brandt Goldsworthy & Associates, Inc., CA - Financial-related audits
2003	OIG	Massachusetts MEP - Financial-related audits
2003	OIG	Computer Aided Surgery, Inc., NY - Financial-related audits
2002	OIG	Additional improvements needed to strengthen NIST's information security program - Evaluation
2002	OIG	Reporting of performance measures needs improvement - Financial statement
2002	OIG	NTIS: New business model - Audit

United States Patent and Trademark Office

Year	Reviewer	Title
2008	OIG	The overseas intellectual property rights attaché program is generally working well, but a comprehensive operating plan is needed - (Open)
2008	OIG	USPTO has reasonable controls over personal property, but additional improvements are needed - Audit - (Open)
2007	GAO	Hiring efforts are not sufficient to reduce the patent application backlog - (Open)
2007	OIG	FY 2007 FISMA assessment of project performance cooperation general support system - Evaluation - (Open)
2007	OIG	FY 2007 FISMA assessment of the patent search system - primary search and retrieval - Evaluation - (Open)
2005	GAO	USPTO has made progress in hiring examiners, but challenges to retention remain - (Open)
2005	GAO	Intellectual Property: Key processes for managing patent automation strategy need strengthening
2005	OIG	Information security in contracts need better enforcement and oversight - Evaluation
2004	OIG	USPTO should reassess how examiner goals, performance appraisal plans, and the award system stimulate and reward examiner production - Inspection (Open)
2004	OIG	USPTO needs strong office of human resources management capable of addressing current and future challenges - Performance Audit - (Open)

National Telecommunications and Information Administration

Year	Reviewer	Title
2008	GAO	Digital Television Transition: Broadcasters' transition status, low-power station issues, and information on consumer awareness of the DTV transition
2008	GAO	Gift cards for respondents to the converter box coupon program survey
2007	GAO	Digital Television Transition: Increased federal planning and risk management could further facilitate the DTV transition
2007	GAO	Digital Television Transition: Questions on the DTV converter box subsidy program and a DTV interagency task force
2007	GAO	Digital Television Transition: Preliminary information on the progress of the DTV transition
2007	GAO	Digital Television Transition: Preliminary information on initial consumer education efforts
2007	GAO	Public safety interoperable communications grant program
2007	GAO	Rules to implement and administer a coupon program for digital to analog converter boxes
2006	GAO	Options for and barriers to spectrum reform
2004	GAO	Interdepartment Radio Advisory Committee: IRAC representatives effectively coordinate federal spectrum but lack seniority to advise on contentious policy issues
2004	GAO	Spectrum Management: Better knowledge needed to take advantage of technologies that may improve spectrum efficiency
2002	GAO	Better coordination and enhanced accountability needed to improve spectrum management
2002	GAO	History and current issues related to radio spectrum management

Strategic Goal 3

National Oceanic and Atmospheric Administration

Year	Reviewer	Title
Ongoing	GAO	Status of Endangered Species Act recommendations
2008	GAO	Polar-orbiting satellite acquisition faces delays: Decisions needed on whether and how to ensure climate data continuity
2008	GAO	Offshore Marine Aquaculture: Multiple administrative and environmental issues need to be addressed in establishing a U.S. regulatory framework
2008	GAO	Aviation Weather: Services at key aviation facilities lack performance measures, but improvement efforts are under way
2008	GAO	Coastal Zone Management: Measuring program's effectiveness continues to be a challenge
2008	OIG	The National Data Buoy Center should improve data availability and contracting practices - Inspection
2008	OIG	Real property portfolio: Opportunities to strengthen management accountability - Audit
2008	OIG	National Marine Sanctuary Program protects certain resources, but further action could increase protection - Inspection
2008	OIG	FISMA Assessment of National Weather Service Telecommunications Gateway
2008	OIG	NOAA's Management of the Joint Enforcement Agreement Program needs to be strengthened
2008	OIG	FISMA Assessment of satellite environmental processing system
2008	OIG	FISMA Assessment of NMFS science and technology system
2007	GAO	Polar-Orbiting Operational; Environmental Satellite: Restructuring is underway, but technical challenges and risks remain
2007	GAO	Geostationary Operational Environmental Satellites: Further actions needed to effectively manage risks
2007	GAO	Weather Forecasting - National Weather Service's operations prototype needs more rigorous planning
2007	GAO	Climate Change Research: Agencies have data-sharing policies, but could do more to enhance that availability of data from federally funded research
2007	GAO	Climate Change: Agencies should develop guidance for addressing the effects on federal land and water resources
2007	GAO	Environmental satellite acquisitions: progress and challenges
2007	GAO	Federal Research: Policies guiding the dissemination of scientific research from selected agencies should be clarified and better communicated
2007	GAO	Improved economic Analysis and evaluation strategies needed for proposed changes to Atlantic Large Whale protection plan
2007	GAO	NMFS take reduction team efforts to protect marine mammals (entrance conference - 8/2007)
2007	OIG	Review of Fisheries Finance Loan Program (entrance conference - 4/2007)
2007	OIG	Successful oversight of GOES-R requires adherence to accepted satellite acquisition practices - Evaluation
2007	OIG	FY 2007 FISMA assessment of network operations center - Evaluation
2007	OIG	Rogers, Minnesota: Complex weather conditions, radar limitations delayed NWS warning of deadly tornado - Audit
2006	GAO	Geostationary Operational Environmental Satellites: Additional action needed to incorporate lessons learned from other satellite programs
2006	GAO	U.S. Tsunami Preparedness: Federal and state partners collaborate to help communities reduce potential impacts, but significant challenges remain
2006	GAO	Polar-Orbiting Operational Environmental Satellites: Cost increases trigger review and place program's direction on hold
2006	GAO	NWS is planning to improve service and gain efficiency, but impacts of potential changes are not yet known
2006	OIG	Poor management oversight and ineffective incentives leave NPOESS program well over budget and behind schedule
2006	OIG	Opportunities to further enhance controls over user fees - Audit
2006	OIG	Progress being made in certification and accreditation process, but authorizing officials still lack adequate decision-making information - Evaluation
2006	OIG	Additional steps are necessary to provide better oversight of contractor information - Evaluation
2006	OIG	SARSAT's E-Authentication controls do not provide adequate assurance of users' identities - Evaluation
2006	OIG	Poor management oversight and ineffective incentives leave NPOESS program well over budget and behind schedule - Performance audit
2005	GAO	Polar-Orbiting Operational Environmental Satellites: Technical problems, cost increases, and schedule delays trigger need for difficult trade-off decisions
2005	OIG	Follow-up audit to inspection report OSE-15676 "Acquisition of NEXRAD transition power source MARRED by management, technical and contractual Problems" - Performance audit
2005	OIG	The Northeast River Forecast Center is well managed, but some improvements are needed - Inspection
2005	OIG	Northwest Indian Fisheries Commission Olympia, Washington NOAA Grant No. NAFF0195 Audit of the subgrant with the Nisqually Indian Tribe Olympia, WA - Performance audit
2005	OIG	The NMFS review process for the California central valley and state water projects' biological opinion deviated from the region's normal practice
2005	OIG	Opportunities to strengthen internal controls over improper payments - Performance audit
2005	OIG	Satellite memorandums of agreement should be improved by using new guidance - Performance audit
2005	OIG	Inadequate support undercuts value of Booz Allen study and its recommended changes to NOAA's finance and administrative services - Performance audit
2004	GAO	Polar-Orbiting Operational Environmental Satellites: Information on program cost and schedule changes
2004	GAO	Budget Issues: Agency implementation of capital planning principles is mixed

Year	Reviewer	Title
2004	OIG	Improvements needed for reporting for NOAA Goals - Build sustainable fisheries, recover protected species, and predict and assess decadal to Centennial Climate Change - Performance audit
2004	OIG	NMFA Northwest Fisheries Science Center, Seattle WA, needs to use appropriate funding instruments to acquire support services for the NW Fisheries Science Center - Performance audit
2004	OIG	Complaints surround the recent selection of the assistant administrator for Weather Services - Inspection
2004	OIG	NMFS observer programs should improve data quality, performance monitoring, and outreach efforts - Inspection
2004	OIG	NOAA Corps has improperly handled confirmation of officer appointments and promotions - Inspection
2003	OIG	Purchase card program at the Environmental Technology Laboratory needs heightened and strengthened internal controls - Performance audit
2003	OIG	Recent gear protocols should improve NMFS Groundfish bottom-trawl survey but more should be done - Performance audit
2003	OIG	Improvements are needed in the reporting of performance measures related to goals for advancing short-term warnings and implementing seasonal to interannual climate forecasts - Performance audit
2003	OIG	Additional management attention needed to ensure implementation of effective security controls to protect NESDIS' research data system - Evaluation
2003	OIG	Stronger security controls needed to protect NESDIS' headquarters local area network - Evaluation
2003	OIG	Acquisition of NEXRAD transition power source marred by management, technical and contractual problems - Evaluation
2003	OIG	Environmental Technology Laboratory needs to improve internal controls for account and funds management - Performance audit
2003	OIG	Process for reducing the critical hydrographic survey backlog lacks key management controls - Performance audit
2003	OIG	NOAA's "Corporate Cost" process needs improvement - Performance audit
2003	OIG	NMFS should take a number of actions to strengthen fisheries enforcement - Evaluation
2003	OIG	Travel card program at National Weather Service headquarters needs additional management controls - Performance audit
2003	OIG	Improvements needed in the reporting of performance measures related to promoting safe navigation and sustaining healthy costs - Financial statement
2002	GAO	Polar-Orbiting Operational Environmental Satellites: Status, plans, and future data management challenges
2002	OIG	NWS forecast offices generally perform well, but regional oversight and management at some offices need to be improved - Inspection
2002	OIG	Pacifica States Marine Fisheries Commission, OR - Financial-related audits
2002	OIG	Internal controls for travel cards at OAR's Environmental Technology Lab can be strengthened - Performance audit
2002	OIG	Program for acquiring fisheries research vessels needs stronger management controls - Performance audit
2002	OIG	Northwest Fisheries Science Center needs improved research management processes to better implement its salmon research plan - Performance audit
2002	OIG	Chanhanssen weather forecast office generally provides effective weather forecasts, but office management and regional oversight need improvement - Inspection

Management Integration Goal

Departmental Management (Office of the Secretary)

Year	Reviewer	Title
2008	OIG	The Office of Acquisition Management has not implemented new contracting policies in a timely manner
2008	OIG	Review of Fiscal Year 2006 earmarks
2007	OIG	Successful oversight of GOES-R requires adherence to accepted satellite acquisition practices - Evaluation
2007	OIG	Internal controls over premium-class travel need to be strengthened - Audit
2006	OIG	Survey of Hurricane Katrina and Hurricane Rita contracts and grants - Audit
2006	OIG	Management of Commerce's Federal Workers' Compensation program needs significant improvements - Evaluation
2006	OIG	Department of Commerce has made significant progress but additional opportunities exist to improve reporting and utility of performance results - Audit - Evaluation
2005	OIG	Commerce's emergency preparedness efforts are improving, but additional management guidance and oversight are needed - Inspection
2004, 2003, 2002	OIG	Independent evaluation of the Department of Commerce's Information Security program under the Federal Information Security Act for FY 2004 - Evaluation
2004	OIG	Management attention is needed to assure adequate computer incident response capability - Inspection
2004	OIG	Information security in Information Technology service contracts is improving, but additional efforts are needed - Inspection
2003	OIG	Office of the Secretary's oversight of its purchase card program needs heightened monitoring and enforcement - Performance Audits
2002	OIG	String management controls will improve planning and control of CAMS - Evaluation
2002	OIG	The Office of Administration Services needs stronger internal controls and management oversight - Inspection
2002	OIG	Information security requirements need to be included in the Department's information technology service contracts - Evaluation
2001	OIG	Program for designating positions according to their risk and sensitivity needs to be updated and strengthened - Evaluation
2001	OIG	Improvements made in CAMS contract management but additional actions are needed - Evaluation
2001	OIG	Executive Summary - Independent evaluation of the Department's information security program under the Government Information and Security Reform Act - Evaluation
2001	OIG	Departmental fund management practices need improvement - Financial Statement
2001	OIG	Implementation of Commerce's trade mission policy has strengthened the management of the missions but additional actions needed - Inspection
2001	OIG	Use of Internet "Cookies" and "Web Bugs" on Commerce web sites raises privacy and security concerns - Evaluation
2001	OIG	Additional focus needed on Information Technology security policy and oversight - Evaluation

OMB PART Reviews of Commerce Programs

Year	Bureau	Program	Grade	Score
2008	NOAA	Tsunami Monitoring, Forecasting and Warning Program	Effective	93
2008	USPTO	Patents	Moderately Effective	73
2008	ITA	U.S. and Foreign Commercial Service	Adequate	68
2008	USPTO	Intellectual Property Protection Activities	Adequate	67
2007	CENSUS	Decennial Census	Moderately Effective	83
2007	NOAA	Hydrology	Moderately Effective	74
2007	ITA	Market Access and Compliance	Moderately Effective	74
2007	NOAA	National Marine Fisheries Service	Moderately Effective	72
2007	MBDA	Minority Business Development Agency (all)	Adequate	60
2007	ITA	Import Administration	Adequate	52
2006	NOAA	Navigation Services	Moderately Effective	84
2006	NOAA	Pacific Coastal Salmon Recovery Fund	Moderately Effective	77
2006	NOAA	Marine and Aviation Operations	Moderately Effective	71
2006	ITA	Manufacturing and Services	Adequate	67
2005	CENSUS	Current Economic Statistics and Census of Governments	Moderately Effective	83
2005	NOAA	Weather and Related Programs	Moderately Effective	76
2005	BIS	Bureau of Industry and Security (all)	Moderately Effective	72
2005	NOAA	Ecosystem Research	Adequate	63
2005	NTIA	National Telecommunications and Information Administration (all)	Adequate	62
2004	CENSUS	Economic Census	Effective	90
2004	CENSUS	Current Demographic Statistics	Effective	87
2004	NOAA	Climate Program	Moderately Effective	78
2004	EDA	Economic Development Administration (all)	Moderately Effective	77
2004	NOAA	Protected Areas	Adequate	68
2003	ESA	Bureau of Economic Analysis	Effective	92
2003	CENSUS	Survey Sample Redesign	Effective	86
2003	NIST	Laboratories	Effective	85
2003	CENSUS	Intercensal Demographic Estimates	Moderately Effective	82
2003	USPTO	Trademarks	Moderately Effective	72
2003	NOAA	Coastal Zone Management Act Programs	Results Not Demonstrated	46
2003	NIST	Commerce Small Business Innovation Research Program	Results Not Demonstrated	27
2002	NIST	Manufacturing Extension Partnership	Moderately Effective	75
2002	NIST	Advanced Technology Program	Adequate	66

Ranking	All Federal programs	% of Total	Commerce programs	% of Total
Effective	193	19%	6	18%
Moderately Effective	326	32%	16	48%
Adequate	298	29%	9	27%
Results Not Demonstrated	173	17%	2	6%
Ineffective	26	3%	0	0%
