

Under Secretary for Technology

As provided by the America COMPETES Act of 2007 (PL. 110-69), the Technology Administration (TA) was abolished in December 2007 upon the enactment of the Consolidated Appropriations Act, 2008 (P.L. 110-161). TA included the Under Secretary for Technology, the National Institute of Standards and Technology (NIST) and the National Technical Information Service (NTIS). NIST and NTIS remain intact as separate organizations, with NTIS reporting to the Secretary through NIST. The Department will modernize its approach to technology policy by elevating technology policy activities to the Secretarial level.
