Initiated By:	Robin MacMillan
Date Initiated:	10/22/2007
Title Name:	Change Background color for NOAA Users.
Description: (Enter the general description of the change request)	After Sunflower was migrated the background color on Sunflower Forms was lighter then pre-migration. The original background color was olive. The color was set to a lighter color (blaf) after the migration. We just need to set the color back to olive.
Current Impact: (Describe the impact that this bug or need for enhancement currently has on the system. Include significant impact descriptions for month end, or year end closing, etc)	The impact is only cosmetic.
	<input type="checkbox"/> Month End Closing Affected <input type="checkbox"/> Year End Closing Affected
Analysis: (Include background information that is Sunflower specific to help identify the root of the problem)	The file formsweb.cfg on the web tier needs be modified.

Solution (Describe the proposed solution, ready to connect the dots for the new enhancement)	<p>On the application tier find the file formsweb.cfg (On the test instance this file is in the directory D:\oracle110gmid\forms\server). 1. Make a backup of this file . 2. Under the sections [snfwr_04050000_proxy_ospad3] and [snfwr_04050000_dbauth_ospad3] find colorscheme=blaf and change the line to colorscheme=olive. 3. Save the file. 4. Done (No need to restart the app server). 5. Send out notification. There should be 2 places where this color is changed.</p>
Solution Impact (Describe the end result/impact that the change will make on the system)	<p>The background color on Sunflower Forms will change back to the darker color for all sunflower users.</p>
Rollout Plan (if necessary) (Describe what will be done if the change does not work or effects the system negatively)	<p>Restore the backup file of formsweb.cfg</p>
Reference File and Revision Number (Insert the file name and file path for the change script/code)
