

## FedTraveler.com v3.0 Release Schedule

**FedTraveler.com v3.0 will provide the user community with a simplified process to:**

- Build, complete, and submit Travel Authorizations – from simple to complex
- Research airfare, rail, lodging, and rental car options
- Book travel reservations.

EDS is committed to enhancing and developing innovative technology solutions and the user's online experience.

The "Voice of the Customer" has been engaged through multiple, on-site Usability Forums at Agency locations. These forums have resulted in requests for an enhanced Online Booking Engine and Travel Authorization web page layout, navigation, displays, messaging, and customer support. EDS has responded with an enhanced and more intuitive Graphical User Interface (GUI) featuring an easy-to-follow navigation for the Travel Authorization process. The GetThere® Online Booking Engine will also be integrated with FedTraveler.com as a part of this release.

**Availability of Web-Based Training (WBT) modules:**
