Appendix:

This report displays the actions and dollars obligated of awards in an approved status for the Top 25 NAICS Codes based on the Department ID field. This report also displays several categories of socio-economic data for a selected department within a specified date range.

** Please note that the combined socio-economic subcategory values will not add up to the total values for each column since some of the categories are subsets of other categories.

** Please note that the data on the "Total" fields (total actions and total dollars obligated on each category) from the Agency level will not add up to the data on the "Total" fields at the Department level. The Top 25 NAICS Code ranking data at the Agency level is different from the Top 25 NAICS Code ranking data at the Department level.

* Small Business Actions and Dollars Obligated: Awards that Contracting Officers have selected are for Small Businesses.

* Small Disadvantaged Business Program (SDB): SDB is based on the CCR SDB or 8(a) flags. If there is no SDB CCR flag but an 8(a) flag, then that 8(a) CCR entry would be included in the SDB count.

For DOD, NASA, and United States Coast Guard, vendors with the following characteristics are also included in the Small Disadvantaged Business (SDB) Program goaling category:

- Historically Black Colleges or Universities (HBCU)

- Minority Institutions (MI)

* 8(a) Program: The 8(a) Program goaling category is based solely on the Type of Set Aside. Awards are included in the 8(a) Program small business goaling category when one of the following Type of set aside is used:

- Non-Competitive 8(a)

- Combination HUBZone and 8(a)

- SDB, 8(a) with HUBZone

* Small Women Owned Business Actions and Dollars Obligated: Awards that Contracting Officers have selected are for Small Businesses with contractors that have a Women Owned Business designation in the CCR data.

* HubZone Program: Awards that Contracting Officers have selected are for Small Businesses with contractors that have HUBZone business designation in the CCR data.
