ACTION

MEMORANDUM FOR: BUREAU PROCUREMENT OFFICIALS HEADS OF CONTRACTING OFFICES

FROM: Helen Hurcombe Senior Procurement Executive and Director for Acquisition Management

SUBJECT: First-Tier Subcontractor Reporting Under the Federal Funding Accountability and Transparency Act

Background
The Federal Funding and Accountability Transparency Act (FFATA) requires the Office of Management and Budget to establish a free, public website containing full disclosure of all Federal contract award information. Federal Acquisition Circular (FAC) Number 44, issued July 8, 2010, further addresses requirements of the Federal Funding Accountability and Transparency Act specific to contractor reporting of executive compensation including first-tier subcontractors. The requirements are phased in their implementation based on the amount of the prime contract.

Purpose
The purpose of this memorandum is to prescribe the requirements of FAC 44 regarding contractors' reporting of subcontract award data and the total compensation of the five most highly compensated executives of the contractor and first-tier subcontractor on contracts and orders of $25,000 or more, including options, except classified contracts and contracts with individuals. This memorandum further defines the contracting officers' requirements to review contractor reporting of this information.

Applicability
The requirements of this policy are applicable to all contracts and orders in excess of $25,000 including commercial item contracts/commercially available off-the-shelf (COTS) item contracts, except classified contracts and contracts with individuals, described herein and in Federal Acquisition Regulation Subparts 4, 12, 42 and 52.

The contracting officer is not required to address data for which he or she would not normally have supporting information; however, the contracting officer must inform the contractor of any inconsistencies with the known contract information and require that the contractor correct the report or provide additional support of the correctness of the information.

3) Reflect performance as it relates to contractor’s reporting into databases such as www.fsrs.gov in past performance reporting.
