U.S. Department of Commerce Privacy Threshold Analysis

Unique Project Identifier: 006-03-01-01-0510-00

Introduction: This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Bureau Chief Privacy Officer (BCPO).

Description of the information system and its purpose: Provide a general description (in a way that a non-technical person can understand) of the information system that addresses the following elements:

The E-Government Act of 2002 defines “information system” by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: “Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44 U.S.C. § 3502(8).

a) Whether it is a general support system, major application, or other type of system
The CSC OS-009 is a general support system.

b) System location
The CSC GSS is currently operational at the Department of Commerce (DOC)/Office of Financial Management (OFM)/Office of Financial Management Systems (OFMS)/CBS Solutions Center (CSC), Gaithersburg, Maryland.

c) Whether it is a standalone system or interconnects with other systems (identifying and describing any other systems to which it interconnects)
The CSC GSS OS-009 is a standalone system managed by onsite personnel; however, it interconnects with the DOT/FAA/ESC and HCHB. If an administrator requires server level access to an Enterprise Application Systems (EAS) application, an RDP connection through a VPN is established. The requirements for interconnection between Department of Transportation (DOT), Federal Aviation Administration (FAA) and Enterprise Service Center (ESC) are for providing CBS and EAS applications users located within the CBS Solutions Center (CSC) to access the application services hosted at the DOT/FAA/ESC.

The HCHB VPN connection provides failover service from CBS Solutions Center to FAA.

The CSC does not allow the general public to access to the CSC GSS OS-009.
d) The purpose that the system is designed to serve

The CSC provides the information technology infrastructure support to Program Support Division (PSD), which uses PII data to support the Budget Execution/Processing, Strategic Planning, Workforce Planning, Record and Information Management, Acquisitions, Funds Process and onboarding of government and contractors employees.

e) The way the system operates to achieve the purpose

The Primary functions of the CSC GSS OS-009 are to support the Department of Commerce (DOC), Office of the Secretary (OSEC), Office of Financial Management (OFM), Office of Financial Management Systems (OFMS) CBS Solutions Center (CSC) and the Technical Support Division (TSD) in executing its Enterprise IT Infrastructure, IT Security, Support and Maintenance, Helpdesk Support, Records Retention, IT Logistic Services, System Administration and network support for the OFMS/CSC facility.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) and DAA (OS-076) applications.

The CSC also provides the information technology infrastructure support to Program Support Division (PSD), which uses PII data to support the Budget Execution/Processing, Strategic Planning, Workforce Planning, Record and Information Management, Acquisitions, Funds Process and onboarding of government and contractors employees.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

f) A general description of the type of information collected, maintained, use, or disseminated by the system

The CSC GSS OS-009 provides information technology infrastructure support to the CSC government and contractor employees who are involved in developing, testing and maintaining the Commerce Business Systems (CBS), Enterprise Applications Systems (EAS) and Data Act Analytics (DAA) applications that are running in DOT/FAA/ESC Oklahoma city and have their own PIAs.

The CSC GSS OS-009 is collecting, maintaining and using infrastructure to support program support division (PSD).

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS OS-009 is collecting, maintaining and using infrastructure to support program support division (PSD).

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS OS-009 is collecting, maintaining and using infrastructure to support program support division (PSD).

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.

The CSC GSS provides technical support to the CBS (OS-051), EAS (OS-059) applications which are running at DOT/FAA/ESC in Oklahoma City and have their own PIAs.
Questionnaire:

1. Status of the Information System
1a. What is the status of this information system?

___ This is a new information system. Continue to answer questions and complete certification.

___ This is an existing information system with changes that create new privacy risks. Complete chart below, continue to answer questions, and complete certification.

Changes That Create New Privacy Risks (CTCNPR)

<table>
<thead>
<tr>
<th>a. Conversions</th>
<th>d. Significant Merging</th>
<th>g. New Interagency Uses</th>
</tr>
</thead>
<tbody>
<tr>
<td>b. Anonymous to Non-Anonymous</td>
<td>e. New Public Access</td>
<td>h. Internal Flow or Collection</td>
</tr>
<tr>
<td>c. Significant System Management Changes</td>
<td>f. Commercial Sources</td>
<td>i. Alteration in Character of Data</td>
</tr>
<tr>
<td>j. Other changes that create new privacy risks (specify):</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

___ This is an existing information system in which changes do not create new privacy risks, and there is not a SAOP approved Privacy Impact Assessment. Continue to answer questions and complete certification.

___ This is an existing information system in which changes do not create new privacy risks, and there is a SAOP approved Privacy Impact Assessment (version 01-2015 or 01-2017). Continue to answer questions and complete certification.

X This is an existing information system in which changes do not create new privacy risks, and there is a SAOP approved Privacy Impact Assessment (version 01-2019 or later). Skip questions and complete certification.

1b. Has an IT Compliance in Acquisitions Checklist been completed with the appropriate signatures?

___ Yes. This is a new information system.

___ Yes. This is an existing information system for which an amended contract is needed.

___ No. The IT Compliance in Acquisitions Checklist is not required for the acquisition of equipment for specialized Research and Development or scientific purposes that are not a National Security System.

___ No. This is not a new information system.
2. Is the IT system or its information used to support any activity which may raise privacy concerns?
   NIST Special Publication 800-53 Revision 4, Appendix J, states "Organizations may also engage in activities that do not involve the collection and use of PII but may nevertheless raise privacy concerns and associated risk. The privacy controls are equally applicable to those activities and can be used to analyze the privacy risk and mitigate such risk when necessary." Examples include, but are not limited to, audio recordings, video surveillance, building entry readers, and electronic purchase transactions.

   ____ Yes. (Check all that apply.)

<table>
<thead>
<tr>
<th>Activities</th>
<th>Building entry readers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Audio recordings</td>
<td></td>
</tr>
<tr>
<td>Video surveillance</td>
<td>Electronic purchase transactions</td>
</tr>
<tr>
<td>Other (specify):</td>
<td></td>
</tr>
</tbody>
</table>

   ____ No.

3. Does the IT system collect, maintain, or disseminate business identifiable information (BII)?
   As per DOC Privacy Policy: "For the purpose of this policy, business identifiable information consists of (a) information that is defined in the Freedom of Information Act (FOIA) as "trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential." (5 U.S.C.552(b)(4)). This information is exempt from automatic release under the (b)(4) FOIA exemption. "Commercial" is not confined to records that reveal basic commercial operations" but includes any records [or information] in which the submitter has a commercial interest" and can include information submitted by a nonprofit entity, or (b) commercial or other information that, although it may not be exempt from release under FOIA, is exempt from disclosure by law (e.g., 13 U.S.C.)."

   ____ Yes, the IT system collects, maintains, or disseminates BII.

   ____ No, this IT system does not collect any BII.

4. Personally Identifiable Information (PII)
4a. Does the IT system collect, maintain, or disseminate PII?
   As per OMB 17-12: "The term PII refers to information that can be used to distinguish or trace an individual’s identity either alone or when combined with other information that is linked or linkable to a specific individual."

   ____ Yes, the IT system collects, maintains, or disseminates PII about: (Check all that apply.)

   ____ DOC employees
   ____ Contractors working on behalf of DOC
   ____ Other Federal Government personnel
   ____ Members of the public

   ____ No, this IT system does not collect any PII.
If the answer is “yes” to question 4a, please respond to the following questions.

4b. Does the IT system collect, maintain, or disseminate Social Security numbers (SSNs), including truncated form?

   ___ Yes, the IT system collects, maintains, or disseminates SSNs, including truncated form.

   Provide an explanation for the business need requiring the collection of SSNs, including truncated form.

   Provide the legal authority which permits the collection of SSNs, including truncated form.

   ___ No, the IT system does not collect, maintain, or disseminate SSNs, including truncated form.

4c. Does the IT system collect, maintain, or disseminate PII other than user ID?

   ___ Yes, the IT system collects, maintains, or disseminates PII other than user ID.

   ___ No, the user ID is the only PII collected, maintained, or disseminated by the IT system.

4d. Will the purpose for which the PII is collected, stored, used, processed, disclosed, or disseminated (context of use) cause the assignment of a higher PII confidentiality impact level?

   Examples of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease treatments, etc.

   ___ Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.

   ___ No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, 4c, and/or 4d are “Yes,” a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the SAOP approved PIA must be a part of the IT system’s Assessment and Authorization Package.
CERTIFICATION

X. I certify the criteria implied by one or more of the questions above apply to the CSC OS-009 and as a consequence of this applicability, I will perform and document a PIA for this IT system.

I certify the criteria implied by the questions above do not apply to the C. Suite and as a consequence of this non-applicability, a PIA for this IT system is not necessary.
